UK & INTERNATIONAL MC CATALOGUE

EBC discs/rotors Now carry R90

EBC® BRAKES

THE WORLD'S LARGEST RANGE OF PREMIUM REPLACEMENT MOTORCYCLE BRAKES

Brake pads, discs, braided stainless brake lines, clutches and much more, with four manufacturing plants in the UK and USA producing over 10 million components each year.

www.ebcbrakes.com

As the saying goes "quality never goes out of style" and EBC Brakes is the perfect example of that. Over 40 years as industry leader as the market changes and supply issues arise, yet no supply issues for EBC and EBC Brakes goes from strength to strength.

Here's why EBC beats them all

In house press-works for backing plates - millions per year

- NRS hook system on all organic backing plates for perfect bond strength
- In house production of all organic and sintered brake pads all with R90 where required (Race & Off Road exclusions)
- Two auto loading in house high powered Lasers for endless supply of rotor components
- New centreless grinder for perfect rotor concentricity, flat smooth and precise within microns
- In house multi line skin packaging, boxing and flow line shipping facilities

Let's remember, EBC Brakes make 100% of the motorcycle brakes it sells **IN HOUSE**
EBC are one of a tiny few companies who has **"Kept the Faith"** as EBC Brakes continues its tradition of **Distributor only sales** allowing those Distributors to fill orders to the dealer network.

The reason we don't need to change recipe is because it works! It works for the distributors, it works for the dealers and it works for us, as a factory.

Thanks to our loyal distributors and the 30,000 plus dealers globally who support us

CATALOGUE COPYRIGHT

This catalogue forms a copyright under international law.

This includes, but is not limited to, the series of brake pad, brake shoe, clutch and brake disc design numbers with or without the prefixes FA, EPFA, GPFA, GPFAX, SFA, MXS, SXR or suffixes R, HH, TT, SV. These design numbers, prefixes and suffixes form the toils of many years of work and set EBC products apart and are easily distinguished from other manufacturers brands or numbers.

Any copying, imitation, in full or in part, by any third party, will result in prosecution to the fullest extent of the law.

Also included within this catalogue are registered or applied for individual trademarks, such as:

- EBC
- Double-H

MOTORCYCLE BRAKE PADS

Aramid Fiber Organic FA Series Pads

FA series organic brake pads will deliver fingertip stopping power and superb brake feel and control, the preferred choice for many sportbike riders. This compound has low disc attack characteristics and gives medium lifetime..

"TT" Pads

"TT" series moto-x sport and enduro pads, cool running based pad compound for sport use in moto-x and ATV applications. For mud, sand or wet conditions requiring longer life, use our sintered range below.

Double-H™ Pads

FA series with HH suffix, EBC's American-made ultra high friction Double-H™ sintered copper alloy brake pads for maximum stopping power and lifetime. If required, stainless steel radiator plates are supplied to reduce heat transfer and double compact for wider pads.

MXS Series Pads

"MXS" moto-x race pads, ultra high friction American-made sintered copper alloy with diamond ground surface finish for fast brake-in. With external hex drive slider pins, these pads are suitable for all fast moto-x riding.

"R" Series Pads

"R" series American-made sintered copper alloy ATV and Moto-X replacement pads for sport and utility off road riding.

Semi-Sintered V-PAD™

This semi-sintered brake pad combines the highest qualities of an organic brake pad with the endurance of a sintered equivalent brake pad. Designed for the heavy cruiser/streetbike market as a replacement brake pad. Can replace both sintered and organic pads.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

MOTORCYCLE BRAKE PADS

EPFA Trackday Pads

EPFA trackday pads give long life in street use with improved fade resistance and heat cycling plus improved noise characteristics, making this a great pad for heavy streetbikes and cruisers as well as faster superbikes. Great for intermittent track use.

GPFAX Race Series Pads

GPFAX vacuum sintered ultra-high friction race pads are for sportbike asphalt racing and have been refined over the years to deliver one of the best brake race materials ever made. See page xiv for full details.

SFA Organic Scooter Pads

A superb general replacement pad for urban use on scooter mofas, mokicks and mopeds. Made using aramid fibres, these pads give above average lifetime, reduced disc wear characteristics and offer great value for money.

SFAC Carbon Scooter Pads

A high durability carbon organic compound giving higher pad performance and longer life for the mid to heavy scooter range. UK-made using 30% copper powder by weight with carbon granules.

SFA-HH Sintered Scooter Pads

These American-made sintered scooter pads are long lasting with high performance HH rated stopping power for perfect braking – wet or dry. The HH pads target the faster and heavier scooter market and work well with stainless steel brake discs.

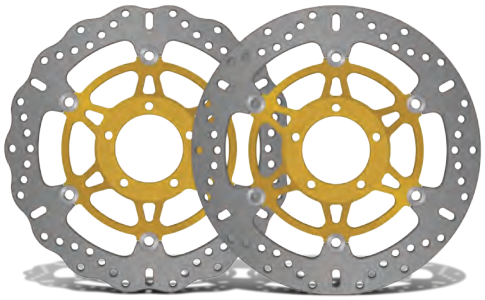
SXR Series Pads

SXR pads are sintered in a custom designed furnace to produce a premium blend of off-road race material that delivers high friction and heat stability. Available for all popular SXS models.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

MOTORCYCLE BRAKE DISCS

X and XC Series Sportbike Discs

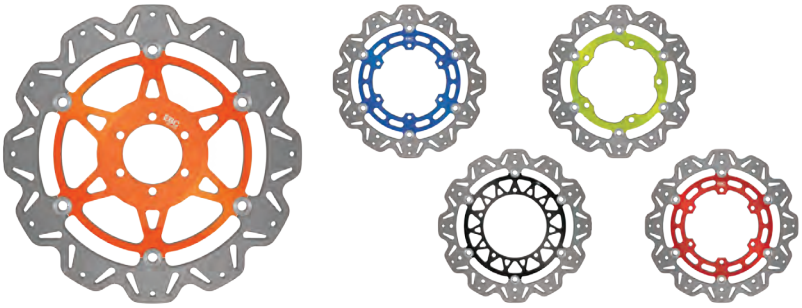


X and XC series discs feature mill hard stainless steel high friction disc blades for maximum brake effect and are direct size for size replacements for OEM discs. These lightweight discs feature our patented SD square drive button system.

VMD Classic Style Discs

A fully floating replacement disc for classic bikes to upgrade the feel and braking power of the system, black anodised hubs and diamond ground stainless steel heat treated rotor rings.

Sportbike VR Series Discs



Vee profile lightweight discs with alloy hubs and ground stainless steel disc blades for fast street bikes. Choose from black or coloured hub options as shown above. To order, prefix with VR and suffix with chosen colour BLK, RED, BLU, GRN, GLD.
For rear discs just the VR number.

Supermoto Brake Disc

SMX 320mm disc with vee contour design upgrade kits complete with caliper relocation bracket.

Oversize MX Discs

250 or 280mm motocross oversize disc kit complete with relocation brackets for improved brake power and control with vee contour design disc.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

MOTORCYCLE BRAKE DISCS

MD Series Stainless Scooter Discs

Made from mill hard rolled steel, these discs are machined to match the original units, mechanically de-stressed to avoid disc distortion, surface finished for precise smoothness.

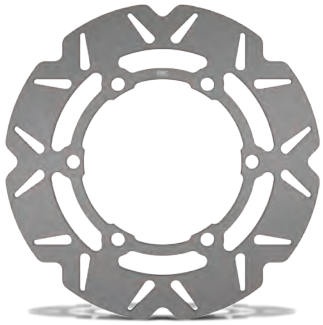
VR Series Stainless Scooter Discs

Made in the UK using mill rolled heat treated and precision ground stainless steel, the new VR series stainless profiled scooter sport discs are the lightest and best looking on the market and can be used with any type of brake pad.

UTVX Discs for ATV/Quad/4x4

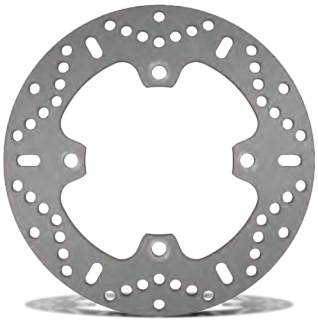
This new design greatly improves brake performance. Made in our British manufacturing facility using durable, tough mill rolled stainless steel, heat treated and diamond ground to give great braking for less than OEM prices.

CX Extreme Off Road Discs



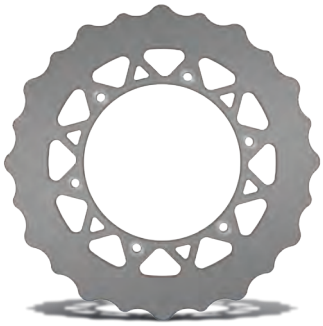
CX Extreme self-cleaning lightweight stainless discs are a size-for-size replacement/upgrade for front and rear fitment on all modern motocross machines.

Rear Brake Discs



Made from stainless steel and available in full circle or contoured profile, suitable for performance street use or racing with new lightweight hole pattern construction.

Enduro Rear Brake Discs



Made in the UK from milled rolled, heat treated stainless steel. These discs have no drill pattern in the pad track which improves pad wear, prevents mud and debris being dragged between the pad and disc. Ideal for enduro competition in all conditions, use with EBC Brakes sintered MXS or R material brake pads.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

DISC BOLT KITS

All manufacturers recommend new disc bolts when replacing brake discs on a motorcycle. EBC Brakes have a range of brake disc bolt kits available to purchase with all new EBC Brakes discs.

Our Disc Bolt Kits are produced to fit individual motorcycle models (refer to Catalogue for model listings). Manufactured from stainless steel with thread lock applied and comply with the original manufacturers specifications, are supplied in sets in the quantity required for each individual brake disc.

EBC Brakes Disc Bolt Kits

- Sold in line with OEM Specifications
- All bolts are stainless steel
- All bolts have thread lock applied

MOTORCYCLE CLUTCH OPTIONS

CK/CKF Series Clutch Kits

CK complete engine sets of stack height controlled friction plates feature the EBC Brakes' unique alloy particle impregnated clutch facings that prevent burn up or slippage. CKF carbon fibre impregnated kits for ATV and moto-x use are built to last longer, grip and feel better than cork kits.

DRC/DRCF Series Clutch Kits

DRC is the ultimate clutch rebuild kit for your ATV and Moto-X machine. The DRCF kit swaps the stock type cork friction plates for a set of severe duty carbon fibre lined friction plates for better heat and wear abilities.

SRC/SRK Series Clutch Kits

SRC is an aramid fibre lined plate set with heavy duty clutch springs (diaphragm type springs included where required). Ideal for heavy sport bikes, faster riders and production based race use. SRK series includes a full engine set of aramid lined friction plates with clutch springs and steel separator plates.

CSK Coil & Diaphragm Clutch Kits

CSK sets include either coiled springs or diaphragm springs where appropriate. Coil springs are spiral wound with 4 to 8 pieces per set, made from heat treated high carbon steel delivering the right tension for your bike. Diaphragm springs are dish shaped flat steel pressure rings.

Clutch Removal Tools

NOW MADE IN STAINLESS STEEL

Made in the UK by EBC Brakes, these laser cut clutch tools make clutch removal, loosening of the drive shaft bolts and re-tightening a breeze, without any fear of damage to your expensive clutch basket. Tools can be extended to create more leverage if required with any simple workshop tool or tube. EBC Brakes produce a clutch tool for almost every clutch plate design known.

Upgrade to EBC High Performance Brake Lines

What makes EBC brake lines the best quality?

- Factory built (not 'workshop made' from components)
- 100% pressure tested after assembly
- Best fitment guaranteed
- Identical routing as originals

EBC brake lines are manufactured from the highest quality materials, with braided stainless steel PTFE hose and grade 303 stainless steel precision machined fittings. EBC do not use mild steel or aluminium components in our brake lines, instead we choose stainless steel for every component, as this material offers maximum quality in terms of strength and corrosion resistance. EBC brake lines are designed and built to last, that's why every line is offered with a lifetime warranty.

As an absolute guarantee of quality, EBC brake lines manufactured to Federal Motor Vehicle Safety Standards (FMVSS-106) and have the following approvals: DOT, TÜV, ISO9001, DEKRA, ARAI, CCC AND ADR.

SXS Products from EBC BRAKES

The longest lasting, highest performing aftermarket pads and discs for the SxS industry yet ... All EBC Brakes pads for SxS fitments, both sintered and carbon TT pads, are made with beefed-up pad thickness and DO NOT REQUIRE or accommodate the fitting of noise shims, offering even more available pad life for this tough application.

UTVX Discs
- Profiled
- UK made
- Heat treated stainless steel

SXR Pads
- Vacuum sintered • Maximum grip
- Race performance • Longest wear life

Sport Carbon TT Pads
- Fast, dry riding
- Enhanced life material
- Enhanced pad thickness

All parts are in stock at your favourite EBC Brakes distributor NOW for immediate delivery.

These pads bed in fast and deliver extremely high friction linear performance in track use. GPFAX pads are high friction but highly stable in stop. This means pads are powerful and predictable time after time when the brake is applied in race use. The "in-stop" friction fall off is almost zero and can hardly be noticed at the lever meaning the brakes offer superb control. The EBC dyno is set to duplicate race conditions at the Road America race track and represents a true simulation of race brake demand. The number of race teams using GPFAX grows annually and for 2021 the exact same formulation developed through 2019 is used again.

EBC pads are developed in our own laboratory and tested using this race track simulator dynamometer to guarantee perfection before being thoroughly field tested on dozens of race teams.

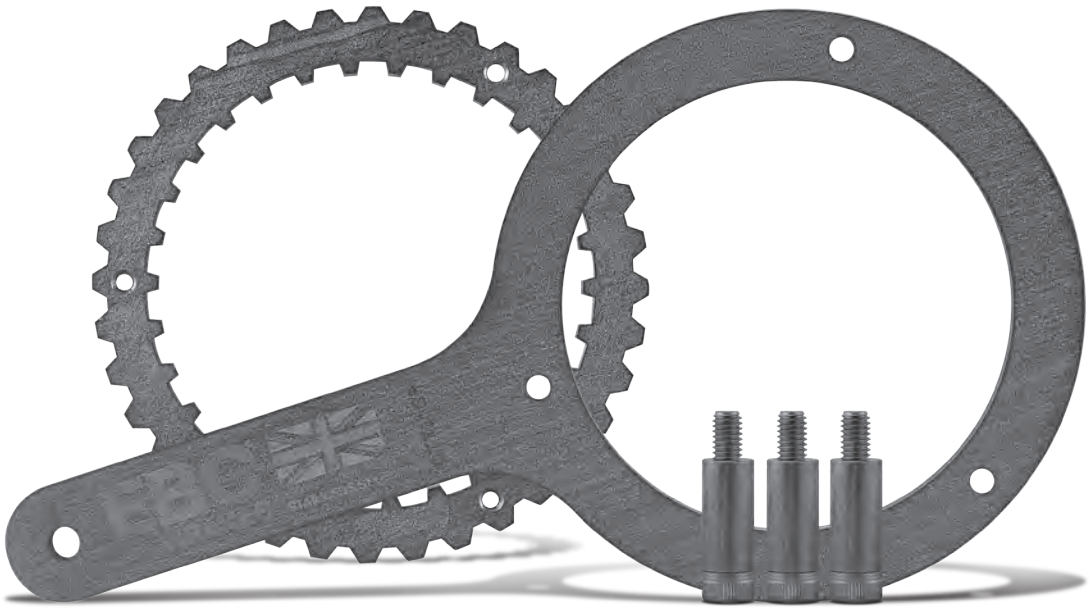
CT CLUTCH REMOVAL TOOLS

Made in the UK, these laser cut clutch removal tools make clutch removal, loosening of the drive shaft bolts and re-tightening a breeze, without any fear of damage to your expensive clutch basket.

Tools can be extended to create more leverage if required with any simple workshop tool or tube. EBC Brakes produce a clutch tool for almost every clutch plate design known.



CAUTION:

Replacing a clutch kit requires skill, expertise and a good workshop, plus tools. A small press and a spring compressor may be needed. If you are not familiar with these routines, use a competent dealer or visit www.fixmyhog.com as an example of how to guide you safely.

Part numbers, prefixes and suffixes shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Limited and use without express permission of the owners is punishable by law.

BRAKE PADS AND DISCS FOR POLARIS SLINGSHOT

EBC BRAKE STANDARD ORGANIC BRAKE PADS

A direct equivalent to the OE brake pads, suitable for every day driving. This is our quietest pad formulation for silent braking – progressive braking with excellent cold friction.

EBC BRAKE YELLOW CODED UPGRADE BRAKE PADS

For faster driving, these pads give excellent cold bite and high temperature fade resistance. Stopping distances are drastically reduced, progressive braking with unparalleled pedal feel.

EBC BRAKE DISCS – OE QUALITY REPLACEMENT

EBC brake discs are cast using high quality G3000 alloy making this a premium OE quality replacement brake disc for your Slingshot. Black thermic coated for aesthetics and corrosion protection.

EBC BRAKE DISCS – BSD BLADE SERIES

The unique BSD blade slot design removes hot gasses from the heart of the braking zone allowing for quicker and more effective dissipation of heat.

COMPLETE VEHICLE STANDARD BRAKE KIT

This money saving kit includes one set of standard organic brake pads for both the front and rear of your vehicle, plus two OE quality brake discs for the front and one for the rear.

COMPLETE VEHICLE UPGRADE BRAKE KIT

This upgrade kit includes one set of yellow coded upgrade brake pads for both the front and rear of your vehicle, plus two BSD blade slotted brake discs for the front and one for the rear.

SAVE $$$ WHEN BUYING THESE PARTS AS A KIT! -10%

Making Precision Pilot Jets

Everyone knows how sensitive an engine is to pilot jets in the acceleration stages from 1000 to 3500 rpm and getting fuel mixture right in this area is critical. For this reason jets have to be perfectly accurate in their marked size and incremental size steps. EBC Brakes sister company A-BAX Precision Engineering Ltd in the UK has purchased the most accurate machine on the planet for this work shown below. A-BAX Precision Engineering Ltd pilot jets are precise, clearly marked and reliably gauged using pin gauges, accurate to one tenth of a thousandth of an inch, you can rely on their accuracy.

Please NOTE … Mikuni style hex jets are flow rate gauged so the hole size (bore) does not correlate with the jet number where all other main jets do – all jet hole sizes are in mm

Red numbers are new to range

Registered trade mark of Harley® Davidson Inc.

These jets are aftermarket made in the ABAX EBC family facility in the UK from brass, made to exacting specifications and are NOT genuine Mikuni, Keihin or Harley® products

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

CARBURETTOR JETS

A-BAX Precision Engineering Ltd brass main jets for Keihin CVH carburettors, used on most big twins. Sold in packets of 2 pieces and in dealer assortment kits of 12 sizes (2 pieces each size).

DEALER SELECTION KIT PART NO – HDJK-12

S&B FILTERS

FILTERS
www.sbfilters.com

Made in the USA, S&B Custom Filters are a great choice for all types of carburettor and feature a special man made gauze called "Remay" made by Dupont® which has the benefit of perfectly uniform hole patterns. This enables the S&B filter to catch dust better than an oil soaked filter and to be run DRY. Oiled filters require regular washing and relube which plays havoc with carburettor balance. Available in parallel or cone type design, with high lustre chrome end caps.

hy-tech racing reeds

For STREET Bikes New CW38 Fibre for higher durability and perfect Reed block seal in high revving 2 stroke motors.

For DIRT Bikes New TWO STAGE Action. By using a lighter fibre on the lower reed block position New Hy-Tech "D" suffix. Reed Kits open earlier and give perfect TWO STAGE response without turbulence or early primary stage reed petal fatigue or New Carbon Fibre CF Series. See below.

CARBON FIBRE REEDS for

most Street and Dirt Bike models Prefix CF for Carbon Fibre.

BAFFLE-PAC-Silencer Glass. PART NO. BP001

This material is labelled and conforms to BSAU 193T2. BEWARE of distributors selling cheaper roofing felt in its place. Repackable Tailpipes as the name implies, require regular cleaning and repacking with BSAU approved "SILENCER GLASS" such as Winning BAFFLE PAC. Failure to maintain tailpipes in such a way will lead to clogging of the silencer wool and raised noise output, together with reduced engine performance. Freeman Automotive and Dealers are not responsible for noise offences due to lack of maintenance as described above. "Recommended repacking period is every 3000 miles on two-strokes or when bike becomes noisy if sooner".

BRAKE FLUID

Bottle label shows all specifications of the fluid.

DOT 4

A refined specification polyglycol fluid as fitted to most faster street bikes now produced.

DOT 4 LV

Advanced low viscosity fluid, to optimise the performance of ESP/ASR (Electronic Stability Program) systems.

DOT 5

Silicone fluid as used in Harley Davidson Motorcycles and many special High Performance Brake systems.

BF307

Highly refined DOT 4 Brake fluid, ideal for Racing or High Performance Road bikes. Can be used in all systems specifying DOT 4 but **NOT** with (DOT 5) silicone fluids.

TO ORDER USE THESE PART NUMBERS			
SIX PACK		**SINGLE BOTTLES**	
DOT 4 (Six Pack)	**BF004**	DOT 4 (Single)	**BF004A**
DOT 5 (Six Pack) (Silicone)	**BF005**	DOT 5 (Single) (Silicone)	**BF005A**
BF 307 (Six Pack)	**BF307**	BF 307 (Single)	**BF307A**
DOT 4 LV (Six Pack)	**BF004LV-6**	DOT 4 LV (Single)	**BF004LV**

CAUTION: Please check carefully the type of brake fluid used in your system.
Adding incorrect fluids could cause major brake failure.
DO NOT ever mix glycol fluids (DOT 4 or BF-307) with DOT 5 silicone.

BRAKE CALIPER LUBE

These sachets of dedicated, high viscosity greases are perfect for all of your customers' brake service needs. Always use sparingly on caliper slider pins and rails, but do NOT get near the pad surface and do NOT use as anti-squeal as it will not help at all. Each sachet contains 5 grammes of grease.

TO ORDER USE THESE PART NUMBERS	
Ten Sachets	**LUBE010**
Fifty Sachets	**LUBE050**

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

4½" GALINDO SUPERBIKE GRIPS

Made in USA with KRATON G material. Without doubt the highest quality grip sold worldwide for street bikes. All below colours at 4½" with separate spacer ring to accommodate 5" throttle units. Complete with heavy plastic bar end plugs and new high visual "Clamshell" packaging.

COLOUR	PART NO.
BLACK	GX001
RED	GX002
BLUE	GX003

BAJA FOAM GRIPS

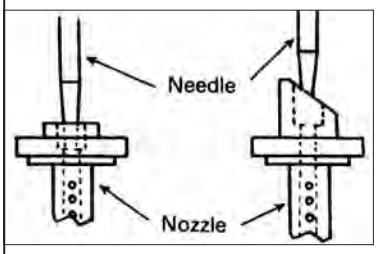
BAJA Foam grips made in USA with "reticulated" foam closed cell construction. Sounds fancy, but what it means is Baja foam grips do not "sponge" up water as will other cheap open cell foam rubber units. Complete with bar end caps and mounting glue.

COLOUR	PART NO.
BLACK	BG001
RED	BG002
BLUE	BG003

LEDAR NOZZLES

LEDAR POWER NOZZLES 2 STROKE DETAILS

- Simply change standard OE Nozzle for Immediate Power Boost
- More power through the range
- Better carburation, improved specific fuel consumption
- Less Unburnt Hydro Carbons means cleaner exhaust and less pollution.



NOZZLE No.	FITMENT
LN43	RD 125 LC Mk 1/Mk 1 2 (Not YPVS), DT 125 MX

RACING REEDS

hy-tech racing reeds

See page 800 for applications

STREET – CW38 fibre still ideal for smaller high revving two strokes but new for track or road Hy-Tech **CARBON FIBRE** reeds, for these designs suffix regular part No with "CF" to order

DIRT – Two stage system with stiffer top reed and standard lower reed gives wider power band + longer reed life on upper reed block position

OR – NEW CF Carbon Fibre series now available.
