

Job Description – Engineering/Maintenance Manager

We are currently looking for an experienced Engineering/Maintenance Manager to join European Friction Industries based in Brislington, Bristol.

The successful candidate will report to the Managing Director and will be responsible for:

- Effectively delegating work to a team of Engineers to ensure minimal disruption to production;
- Ensuring all Pre-Preventative Maintenance (PPM) is carried out in a timely manner;
- Ensuring that buildings, plant and facilities are fit for purpose and to provide proactive support/solutions when required;
- Managing maintenance purchasing requirements, including capital forecasts;
- Develop, implement and manage key performance indicators (KPIs);
- Overseeing new projects from design stage to full installation / hand over;
- Working as part of the management team – to share ideas and improve operations. Recommending, supporting and implementing continuous improvement activities to improve quality of product and production output;
- Liaising with other departments, customers, suppliers and other service providers.

The candidate must also possess:

- Electrical, hydraulic, pneumatic and mechanical experience
- A full driving license.
- Knowledge of Microsoft Office.

Salary: £45,000 - £50,000 per annum, depending upon experience. Sales performance bonus and long service award are included within the role.

- Full-time position - 39 hours per week Monday-Friday.
- Holidays 21 days holiday plus bank holidays increasing after 1 years' service.
